

Capture every precious moment

Maternity. We will dress you in breezy wraps for amazing belly shots. If you will have Dad or children in the picture, have everyone dress in white with denim or khaki.

Newborn. We LOVE to see babies when they are less than two weeks old for curled-up sleepy shots. Mom and Dad should bring long-sleeved black shirts for stunning images cradling your baby. This is the perfect time for birth announcements.

Two-three months. Baby can be bare or in a well-fitting outfit. Often baptism pictures are taken at this session. If you came as a newborn, wait until baby can push up on the belly and hold his/her head straight.

Six months. Your child should be sitting without assistance, so wait a week or two if needed. Great clothing: diaper covers, onesies, simple dresses or shortalls. This is an ideal session for naked shots with a cowboy hat or one of our antique bonnets.

Nine months. If baby is standing and cruising, getting a headful of hair, and changing quickly, this is a good time to come back in for a new portrait. Break out the fancier outfits, be colorful, bring a favorite toy. Make this one fun!

Holiday. If Christmas comes at an odd time, come in for your holiday shots on a session of its own. Bring the whole family and celebrate your first holiday with your new addition.

Cake smash. This very fun shoot is scheduled a few weeks before baby's big birthday party and is hilarious for over-the-top cute party invitations. Make this part of your plan or do our special collection add-on which includes the invites.

One year. You made it! Choose either a formal or a casual session. Clothing ideas include: overalls, tulle dresses, sports uniforms, solid shirts, and slip dresses. The plan expires when baby is 15 months old.
